

PALLETS

-  **secure & reliable packaging solutions**
-  **available Australia wide**
-  **made from plantation-grown timber**

TIMBER & PLASTIC PALLETS

Lightweight, Heavy Duty & Durable

CMT aim to provide the best pallet range, which makes assembling, transportation, loading and unloading of goods an easy task. CMT has extensive expertise in designing, developing and manufacturing a range of timber, plastic and cardboard pallets for many industry applications.

Our durable range of pallets is designed to provide safe and efficient usage throughout challenging and diverse storage, handling and distribution situations. It also can be maintained and refitted easily.

If required CMT can provide NATA accredited load testing certificates, ensuring the pallets you use are safe and fit for purpose.

Our complete timber and plastic pallet product range comprises:

- ✓ **Custom Pallets**
- ✓ **Standard Pallets**
- ✓ **Euro Pallets**
- ✓ **Export Pallets**
- ✓ **Lightweight Pallets**
- ✓ **Medium Duty Pallets**
- ✓ **Heavy Duty Pallets**

With any purchase you can custom brand with your company name or logo, as well as your phone number, giving your product extra branding in the marketplace. Some customers also choose to have their pallets painted in a company colour, making them distinct and instantly recognisable.

Once delivered CMT can provide added value with a fully managed service for your pallet pool. This is a complete end-to-end option covering everything from supply, through to sort and repair, as well as disposal of damaged or unwanted pallets.

PALLET COLLARS

Convenient, Economic & Reusable

Wooden pallet collars are a very convenient and economic type of reusable packaging for various types of applications. A brilliant solution for businesses involved in hardware products, parts manufacturing, warehouse storage and logistics, commercials building and construction, nurseries and retail.

Highly durable, these products aim to increase storage space, improve warehouse safety and protect goods during transport. The pallet collars can be easily collapsed and stored away when not in use. Whether you are using shelf or non-shelf systems, pallet collars will work in any environment to store and transport your goods safely.
