

CRANE PALLETS

secure & reliable packaging solutions

available Australia wide

Heavy Duty Crane Pallets

At CMT we are proud offer a range of fully customisable heavy-duty Crane Pallets - designed for heavy loads and more specifically to be lifted by cranes.

Our crane pallets provide the following key benefits:

- ✓ Developed and designed by certified engineers to ensure maximum strength;
- ✓ All pallets are certified and load tested for Static Load 5000 kgs and Dynamic Load 2500 kgs providing peace of mind and durability;
- ✓ Built with Seasoned MGP12 Timber and 150mm Galvanized Bolts to provide longevity;
- ✓ Metal protection strips (upper and lower) to prevent damage caused by forklifts; and
- ✓ Pallets designed for crane lifting of construction material.

Expert Manufacturing

Our manufacturers are skilled craftsmen who pride themselves on their wide industry-knowledge and ability to make strong, durable products each and every time.

Using the most appropriate materials and the latest techniques in quality pallet manufacturing, you can relax knowing your crane pallets will stand the test of time, getting the job done.

High Quality You Can Afford

We don't believe in making things hard for you. Our crane pallets are competitively priced, giving you value for money and the assurance that you're being looked after by innovative leaders in the business.
